</> Summary

I am currently an Assistant Professor at the University of Warwick. I obtained my PhD from the University of Cambridge, where I proposed the **Probabilistic Adversarial Attack**, a principled probabilistic perspective to adversarial attacks. After my PhD, I developed the **Concept-based Adversarial Attack**, which leverages the probabilistic perspective of adversarial attacks to extend traditional single-image adversarial attacks to broader semantic concepts or entities, expanding the applicability of adversarial methods.

🔗 Work Experience

WMG, University of Warwick

Coventry, United Kingdom

Assistant Professor

Mar. 2026 -

- Concentrating on AI safety and LLM safety.

Department of Computer Science, University of Manchester

Manchester, United Kingdom

Postdoc Research Associate in Machine Learning | Supervisor: Prof. Samuel Kaski

Nov. 2024 - Feb. 2026

- Supported by UKRI Generative AI Hub.
- Proposed concept-based adversarial attack.

🏛️ Education

Trinity College, University of Cambridge

PhD in Computer Science

Oct. 2019 - Dec. 2024

- Thesis Title: **Anomalous Inputs in Deep Learning: a Probabilistic Perspective**
- Supervisor: Dr. Damon Wischik
- Supported by Mrs. Yanshu Wu
- Keywords: Probabilistic Generative Models, Large Language Models, Out-of-distribution Detection, Adversarial Attack

MASt in Mathematics (Part III of the Mathematical Tripos)

Oct. 2018 - Jun. 2019

- Relevant modules: Statistical Learning in Practise, Convex Optimization, Astrostatistics, Bayesian Modelling and Computation, Modern Statistical Methods

MPhil in Advanced Computer Science

Oct. 2017 - Jun. 2018

- Relevant modules: Machine Learning for Natural Language Processing, Algebraic Path, Deep Learning for Natural Language Processing, Advanced Functional Programming, Probabilistic Machine Learning

School of Computer Science, University of Manchester

BSc (Hons) in Computer Science and Mathematics

Sep. 2014 - Jun. 2017

- Relevant modules: Machine Learning, Quantum Computing, Compilers, Convex Optimization, Probability, Statistical Methods, Functional Analysis, Topology, Number Theory

🔗 Internships

MediaTek Research

Cambridge, United Kingdom

Deep Learning Intern | Host: Dr. Alberto Bernacchia

Aug. 2024 - Nov. 2024

- Participated to a project in accelerating the sampling of diffusion models by proposing a new second-order estimation of the posterior.

University College London

London, United Kingdom

Visitor | Hosts: Dr. David Barber and Dr. Mingtian Zhang

July. 2023 - Oct. 2023

- Worked on a new image generative model that based on Diffusion models.
- Worked on Amortized LoRA, a more principle and probabilistic way to generate LoRA parameters.

Kirin AI Group, Huawei

Cambridge, United Kingdom

Research Intern (Part-time) | Host: Mr. Arnau Raventos

Nov. 2021 - Oct. 2022

- Conducted a comprehensive evaluation of various traditional and AI-based frame interpolation methods, providing insights for the product department to leverage in their decision-making processes.
- Contributed to an AI global illumination project, successfully implemented various samplers within the Mitsuba 3 framework.

Noah's Ark Lab, Huawei

Shenzhen / Beijing, China

Research Intern | Hosts: Dr. Yitong Sun and Dr. Shifeng Zhang

Sep. 2020 - Sep. 2021

- Co-developed the local autoregressive model, which significantly advanced the state-of-the-art in Out-Of-Distribution (OOD) detection and lossless compression. The empirical evidence supporting this enhancement was recognized and published in NeurIPS 2021.
- Contributed to a computer vision project through researching deep learning uncertainty for active learning applications. The outcomes of this work were recognized and published in BMVC 2021.
- Contributed to an indoor positioning project leveraging WiFi signal strength. I specifically conducted research on Deep Gaussian Processes, leading our team to enhance indoor positioning accuracy. The successful results of this work were published in IPIN 2021.

University of Cambridge

Cambridge, United Kingdom

Course Supervisor (Teaching Assistant)

Oct. 2019 - Dec. 2024

- Supervised IA Algorithms (2020 Lent, 2023 Lent), IA Machine Learning in Real World (2020 Lent), IA Introduction to Probability (2020 Easter, 2021 Easter), IB Further Java (2020 Michaelmas), IB Data Science (2022 Michaelmas, 2023 Michaelmas), IB Further Graphics (2022 Michaelmas) and II Machine Learning and Bayesian Inference (2023 Lent)

MRC Biostatistics Unit, University of Cambridge

Cambridge, United Kingdom

Research Assistant | Hosts: Dr. Sofia Villar and Dr. David Robertson

Jul. 2019 - Sep. 2019

- Developed a simulation system to tackle the multi-armed bandit problem (MABP) in clinical trial settings and pioneered a unique test statistic for binary response MABP situations. Although the time constraints prevented this work from being formalized into a publication, it provided substantial practical and theoretical insight.

Tencent (WeChat AI)

Beijing, China

R & D Intern | Host: Dr. Jie Zhou

Jul. 2018 - Sep. 2018

- Engaged in comprehensive exploration and research in deep reinforcement learning and evolution strategies. While this research did not culminate in a tangible output, the experience gained in these cutting-edge fields has proven invaluable.

Amazon (Alexa)

Cambridge, United Kingdom

Applied Scientist Intern | Host: Dr. Emilio Monti

Jun. 2017 - Sep. 2017

- Employed the Seq2Seq model, the predecessor of the Transformer, with the Attention mechanism for semantic parsing tasks. Semantic parsing involves translating natural language into a structured internal language used for database or knowledge base querying.

Robotics Institute, Carnegie Mellon University

Pittsburgh, United States

Student Intern | Host: Dr. Stelian Coros

Jun. 2016 - Sep. 2016

- Contributed to the implementation of a general stance controller for 3D-printable robotic creatures. The controller's adaptability enables it to be used with any human-designed multi-foot robots, hence its designation as 'general'.

Academic Service

I have served as a reviewer for the following conferences:

- NeurIPS (2024, 2025, 2026)
- ICML (2025, 2026)
- ICLR (2025, 2026)
- AISTATS (2023, 2024, 2025, 2026)
- CVPR (2025, 2026)
- ICCV / ECCV (2025, 2026)
- ACM MM (2025)

*Equal contribution.

- AAAI (2026)
- COLM (2026)
